

We inspire, we believe, we challenge, we achieve

Meet... THE TEACHER

Introduction

Hi, I am Mr Clayton, who will be your class teacher for Year 4. I am very excited to be taking on the class and having another year of: fun, creativity and progression in learning.

I am a strong advocate of outdoor learning, creativity, interactivity and fun within learning, where it isn't seen as a chore. I want to engage children in subjects they may not have liked before joining the class, furthermore developing their love for subjects they enjoy. All children have different mind-sets and ways of learning. It is my job to find the correct need to support your child's learning to ensure progression.

Education

- Undergraduate degree
- I studied Primary Education (5-11 years) at York St John University.
- My subject specialism I took was P.E, so I have a wide range of knowledge and understanding of PE holistically.
- English literature, sociology and ethics and philosophy were the subjects I took in sixth form.

About me!

I have a variety of interests stemming from sport to writing. I am an avid sport enthusiast, who enjoys running, swimming, tennis and badminton. When I was younger, I was a competitive athlete which enables me to help children excel and grow in sport, furthermore handling emotions. I am an adrenaline junkie and love anything that involves risk, fear and danger.

On the other hand, I love reading books that inspire and keep me hooked. Thriller, horror and suspense books are my favourite! Moreover, I enjoy writing, which I would like to pursue later whilst teaching on resulting in publishing a book. This interest and love for writing will allow me to develop or emerge within the children this academic year.

Respect. Aspiration. Honesty. Enjoyment. Resilience
